LISTENING:

MONDAYS

When I go to school on Monday, I only take my English book, a notebook and a pencil because I only have English class on Monday morning. In the evening, I cook dinner because my father and my mother usually go to visit the neighbor, and then they come home for dinner.

My brother and my sister study every day, but this Monday they have a lot to study. They have dinner, and then they start studying. They say they need to study, but I think they like to study.
