LISTENING:

A SPECIAL FRIEND

I have a friend, a very special friend
She never says bad things to me
She's always there when I want her to be
My friend is quiet now and then

But she's a very special friend

I don't know if you have a friend like mine
But I'm sure you have a good friend too
It's so nice to have someone near you
Even there when you aren't so fine

And my friend, she is always kind

Friends are usually beautiful
Some friends are fat and others thin
Some friends go and come back again
But friends are always wonderful

My sweet little friend is so meaningful

So here I am to tell you about my friend
She lives inside me and she's very small
But she's certainly the best friend of all
And she is my friend from here to the end

She's a small little angel friend

Maybe you think I'm crazy and so on
Or maybe you also have an angel in you
It seems a little funny but it's true
She's maybe brunette or maybe blonde

But she is forever and ever the same one!
